Letter of support for ENT UK bid to host IFOS 2030 from **Miss Sujata De, President BAPO**

Letter to Prof Angel Ramos-Macias IFOS General Secretary

Dear Professor Ramos-Macias,

On behalf of the Council of the British Association for Paediatric Otorhinolaryngology (BAPO), I am delighted to offer our unequivocal support for ENT UK's bid to host the International Federation of Otorhinolaryngological Societies (IFOS) World Congress in 2030.

BAPO works closely with ENT UK and greatly values our long-standing and productive collaboration. ENT UK consistently recognises the distinct approaches and specialist expertise required in paediatric otorhinolaryngology and actively supports the continued development of the speciality within the UK.

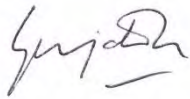

We are committed to working alongside ENT UK to help deliver a high-quality, innovative, and inspiring paediatric programme as an integral component of the IFOS 2030 scientific agenda, building upon our experience of hosting a successful annual scientific meeting since 1991 and the European Society of Pediatric Otorhinolaryngology (ESPO) congress in 2023. We are particularly enthused by the opportunity to highlight the specialist skills and multidisciplinary collaboration essential to paediatric otolaryngological practice, and to contribute meaningfully to the organisation of this prestigious global congress.

The city of London represents a world-leading centre for surgical education and clinical excellence, with a vibrant and well-established paediatric surgical community. The city offers a modern, accessible, and inclusive environment that would provide an outstanding setting for delegates from across the globe.

# british association for paediatric otorhinolaryngology

It is therefore with great pleasure that I extend the full and fervent support of the Council of BAPO for ENT UK's bid to host the IFOS 2030 World Congress. We are confident that London would provide an inspiring forum for the international otolaryngology community to come together in advancing the future of our speciality.

Yours sincerely,

**Miss Sujata De**

President

British Association of Paediatric Otorhinolaryngology (BAPO)
