6th January 2026

Dear Professor Ramos-Macias,

IFOS World Congress 2030

As Chief Executive Officer of Excel London, I am delighted that our venue is being considered to host the highly prestigious IFOS World Congress in 2030.

I am pleased to give my personal support to this bid to demonstrate how London and Excel can deliver a highly successful congress for delegates, sponsors, as well as IFOS. We are committed to creating a bid that not only outlines a compelling financial model but defines how we can meet your objectives for delegate experience and positive community impact from the congress being hosted in our city.

In recent years we have successfully bid for, and hosted, many major national and international congresses, including the International Society on Thrombosis and Haemostasis 2022, IEEE International Conference on Robotics and Automation 2023 and European Society of Organ Transplantation 2025. In 2026 we will be welcoming a significant number of congresses to the venue including the European Association of Urology Annual Congress, European Congress of Rheumatology, Alzheimer's Association International Conference, and the European Society of Cataract & Refractive Surgeons Congress.

It is this proven capability to welcome international guests to our city, along with major investments in our venue, hotels and transport networks, that make London a world-class candidate city for IFOS World Congress 2030.

If we are successful in being selected, we will work closely with you and the ENT UK team to understand your specific requirements, ensuring you get the most from hosting your conference with us. Our spaces offer complete adaptability to enable us to meet all the demands of the conference as the programme comes together, and our highly experienced team are perfectly placed to deliver the conference to the highest possible standard.

Thank you for giving us the opportunity to bid to welcome the IFOS World Congress 2030 to our city, and please do not hesitate to contact me if I can be of any assistance.

Yours sincerely

Jeremy Rees
Chief Executive Officer
